

## P R E S S I N F O R M A T I O N

### **Limescale stains don't stand a chance with the KEUCO glass wiper**

### **Optimal wiping function in a design-strong look and velvety haptic**

**Feel good** – A glass wiper is practical to be sure that the shower walls, tiles and floor in the shower shine and that there is always a feeling of well-being in the bathroom. It contributes to a clean bathroom in a simple way. The stylish KEUCO glass wiper in a velvety haptic makes it easy for the whole family to remove excess water from the bathroom surfaces after every shower. The high-quality wiping lip made of flexible silicone ensures streak-free cleaning, while effortlessly removing residues of shampoo, soap, etc. and is also suitable for sensitive surfaces.

**Less is more** – With its minimalistic, handle-free design, it is hardly recognisable as a glass wiper at first glance. Thanks to its shape, it is particularly space-saving to store away or hang up in the bathroom using the wall holder. At the same time, the very flat design lies elegantly on the wall. Available in white, black, grey and truffle, it fits in with the latest colour trends and can be harmoniously integrated into the colour scheme of the bathroom.

**Keeps its promise** - The holder is very easy to fix using the "sticking instead of drilling" system - to fix it on the wall or shower partition: clean the surface, pull off the foil, press on the holder - done. The loop is in the same colour as the glass wiper and offers you the possibility of hanging it up, either on the hook provided or anywhere else in the bathroom. At the same time, when you put your hand through the loop, it is safe from falling when using it.

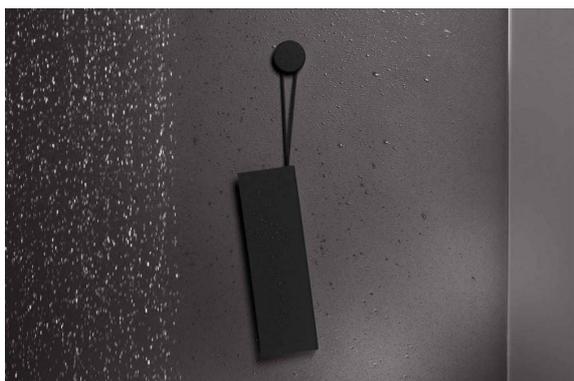

**Soft shell, hard core** - The core of the glass wiper is made of a high-strength plastic, while the outside is covered with silicone for a velvety, pleasantly soft touch. The plastic core provides stability and a appreciable weight. Thanks to the silicone coating, it also lies in the hand without slipping and is ideal for use even with moist or wet hands. Even if it should fall down, the soft surface will not leave any scratches.

## P R E S S I N F O R M A T I O N

**Top job** - With a handy shape and a width of in 82 mm, it is easy to clean in corners, narrow angles or hard-to-reach places. A cleaning aid with a groove-less design to avoid deposits of residue particles, at the same time, guarantees a high standard of hygiene.
